Investing in the Fund

Direct investors

Direct investors can acquire units in the Funds by following the instructions outlined in the Application Form accompanying the PDS. All applications must be made in Australian dollars.

Minimum application amounts are subject to the Australian dollar minimum amounts disclosed in the PDS.

Indirect investors

If you wish to invest indirectly in the Funds through an IDPS your IDPS Operator will complete the application for you. Your IDPS Operator will advise what minimum investment amounts relate to you.

Withdrawing your investment

Direct investors

Direct investors of the Funds can withdraw their investment by written request to:

Premium Asia Income Fund - Unit Registry
c/o Link Fund Solutions
GPO Box 5482
Sydney NSW 2001
Australia

Or sending it by fax to +612 9221 1194

Minimum withdrawal amounts are subject to the Australian dollar minimum amounts disclosed in the relevant PDS. Withdrawal requests received from New Zealand investors must specify:

- the withdrawal amount in Australian dollars; or
- the number of units to be withdrawn.

We are unable to accept withdrawal amounts quoted in New Zealand dollars. Please note that the withdrawal amount paid to you will be in Australian dollars and may differ from the amount you receive in New Zealand dollars due to:

- Foreign exchange spreads between Australian and New Zealand dollars (currency rate differs daily); and
- Overseas telegraphic transfer ('OTT') costs.

Withdrawals will only be paid directly to the investor's bank account held in the name of the investor with an Australian domiciled bank. Withdrawal payments will not be made to third parties.

Indirect investors

If you have invested indirectly in the Funds through an IDPS, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator.

Managing your investment

Distributions

If New Zealand investors elect to have their distribution directly credited they will need to nominate a bank account held in their own name with an Australian domiciled bank. Cash distributions will only be paid in Australian dollars to such an account. When the distribution is reinvested, New Zealand investors will be allotted units in accordance with the terms and conditions set out in the PDS relating to the units in the Funds. Please see the PDS for a description of distributions and the terms and conditions of the reinvestment of distributions.

The distribution reinvestment plan described in the PDS is offered to New Zealand investors on the following basis:

- At the time the price of the units allotted pursuant to the distribution reinvestment plan is set, the Responsible Entity will not have any information that is not publicly available that would, or would be likely to, have a material adverse effect on the realisable price of the units if the information were publicly available.
- The right to acquire, or require the Responsible Entity to issue, units will be offered to all investors of the same class, other than those resident outside New Zealand who are excluded so as to avoid breaching overseas laws.
- Units will be issued on the terms disclosed to you, and will be subject to the same rights as units issued to all investors of the same class as you.

There is available from the Responsible Entity, on request and free of charge, a copy of the most recent annual report of the Funds, the most recent financial statements of the Funds, the auditor's report on those financial statements, the PDS and the Constitution for the Funds (including any amendments). Other than the Constitution, these documents may be obtained electronically from www.premiumchinafunds.com.au.

Processing cut-off times

The processing cut-off times for applications and withdrawals referred to in the PDS are Australian Eastern Standard Time (Australian EST) and you should take this into account when sending instructions.

Cooling off rights

Cooling off rights may apply to investors in New Zealand. If you wish to exercise your cooling off rights you should contact the Responsible Entity of the Funds. The PDS contains further information about the rights that may apply.

Taxation

New Zealand resident taxation

If you are a New Zealand resident wishing to invest in Australia, we strongly recommend that you seek independent professional tax advice. New Zealand resident investors will be taxed on their units under the foreign investment fund rules or ordinary tax rules, depending on their circumstances. Australian tax will be withheld at prescribed rates from distributions to non-residents to the extent that the distributions comprise relevant Australian sourced income or gains.

1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Value Partners Hong Kong Limited ("Value Partners") as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Value Partners Hong Kong Limited

Value Partners is one of Asia's largest asset management firms. The company is headquartered in Hong Kong and has offices in Shanghai, Beijing, Shenzhen, Singapore, Kuala Lumpur and London. Value Partners is a wholly owned subsidiary of Value Partners Group Limited, the first asset management firm listed on the Main Board of the Hong Kong Stock Exchange (Stock code: 806 HK).

Value Partners is licensed under the Hong Kong Securities and Futures Ordinance to carry out the regulated activities in Hong Kong of type 1 (dealing in securities), type 2 (dealing with future contracts), type 4 (advising on securities), type 5 (advising on futures contracts) and type 9 (asset management). Value Partners does not hold an Australian financial services license.

The Fund Manager

Premium Asia Income Funds Management Pty Ltd

Premium Asia Income Funds Management Pty Ltd is an authorised representative of Premium China Funds Management Pty Ltd, a boutique funds management group established in 2005 to bring Asia investment opportunities into the Australian market, in order to bridge the gap between investors' needs to internationally diversify and the suite of investment solutions available.

As a leading Asia specialist, Premium China Funds Management is committed towards educating Australian and New Zealand investors on the markets across Asia. Premium China Funds Management Pty Ltd is the holder of an Australian Financial Services License (AFSL No. 291570), authorising it to provide financial product advice and deal in interests in its range of funds. The Fund Manager's role is primarily to assist the Responsible Entity with overseeing and monitoring the Investment Manager's investment and management of the Fund and to promote and market the Fund.

2. How the Premium Asia Income Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$25,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Link Fund Solutions
Unitholder Services
PO Box 5482
Sydney NSW 2001

Please note that cash and cheques cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.50%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$10,000.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income quarterly at the end of March, June, September and December. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution directly credited if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the Premium Fund New Zealand investors Information Sheet)

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Link Fund Solutions
Unitholder Services
PO Box 5482
Sydney NSW 2001

Or by fax to +61 2 9221 1194

The minimum withdrawal amount is \$10,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 7 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investors' nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 90 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.50%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$25,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and

- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the Premium Asia Income Fund

The Fund is an actively managed portfolio consisting of fixed interest securities issued by companies in Asia and the Middle East. Benefits of investing in the Fund include:

- Regular income and potential for long-term capital growth
- Access to a prominent Hong Kong-based asset management company with a large and experienced investment team
- Active management aimed at maximising potential for returns over the medium and longer-term

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity does not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Region risk

Investments exposed to the Asian and Middle Eastern regions are generally subject to a higher risk than investments in developed market economies. Many Asian and Middle Eastern countries may be considered emerging markets, and are exposed to risk factors including lower liquidity, the potential for political unrest, the increased likelihood of sovereign intervention, currency volatility, and increased legal risk. Investments exposed to these regions therefore may experience increased asset price volatility, and carry higher currency, default and liquidity risk.

Income securities risk

The Fund may have exposure to a range of income securities, including high yield, emerging markets, and structured securities. The value of these securities may fall, for example due to interest rate movements, perceptions of credit quality, supply and demand pressures, market sentiment, or issuer default. These risks may be significantly greater for issuers offering higher returns, for example high yield or emerging market issuers. Income security risk may cause unit price volatility and/or financial loss to the Fund.

Liquidity risk

Investments may be difficult or impossible to sell, either due to factors specific to that security or investment, or to prevailing market conditions. Liquidity risk may mean that an asset is unable to be sold or the Fund's exposure is unable to be rebalanced within a timely period and at a fair price, potentially resulting in delays in redemption processing, or even the suspension of redemptions.

Currency risk

Investments in the Fund may be denominated in currencies other than Australian dollars. Their value, as well as any distributions made, will therefore be exposed to foreign exchange rate movements. The Fund aims to manage this risk by hedging some or all of the Fund's currency exposure; however some residual currency exposure may remain after hedging. Hedging may not be successful in reducing losses from adverse currency movements, and may also reduce the opportunity for profit. There may be costs involved in hedging, which will impact the Fund's performance.

Default risk

Issuers or entities upon which the Fund's investments depend may default on their obligations, for instance by failing to make a payment on a security, or by failing to return principal. Such parties can include the issuers of securities held by the Fund including warrants, depositary receipts and hybrid securities. Counterparties to the Fund may default on a contractual commitment to the Fund. Counterparties may include over-the-counter derivatives counterparties, brokers (including clearing brokers of exchange traded instruments), repurchase agreement counterparties, foreign exchange counterparties, swap counterparties, as well as the Fund's custodian. Default on the part of the issuer or counterparty could result in a financial loss to the Fund.

Investment risk

The Fund has exposure to fixed income markets. The risk of an investment in the Fund is higher than an investment in a typical bank account. Amounts distributed to unitholders may fluctuate, as may the Fund's unit price. The unit price may vary by material amounts, even over short periods of time, including during the period between a redemption request being made and the time the redemption unit price is calculated.

Derivatives risk

Derivatives may be used to hedge existing exposures or to gain economic exposure. The use of derivatives may expose the Fund to risks including counterparty default, legal and documentation risk, and the risk of increased sensitivity of the Fund's unit price to underlying market variables. The use of derivatives may have the effect of magnifying both gains and losses.

Credit risk

The value of the Fund's investments may be sensitive to changes in market perceptions of credit quality, both of individual issuers and of the credit markets in general, this sentiment being reflected in market credit spreads. The Fund invests in credit related securities and takes credit risk in order to achieve its investment objectives. However the value of such securities, and hence therefore the Fund's unit price, may be impacted by changes in the market's perception of credit quality (including as a result of credit rating changes).

Concentration risk

The Fund will likely focus its investments in a relatively small number of investments. This may result in the returns of the Fund being dependent on the performance of individual securities. This concentration of exposures may increase the volatility of the Fund's unit price, and increase the risk of poor performance or loss. It may also result in the Fund's returns differing significantly from its benchmark.

Share market risk

The Fund may have some exposure to share markets, for example where a bond held by the fund converts to equity. Share markets can and have been volatile, and have the potential to fall by large amounts over short periods of time. Downturns in share markets may negatively impact the overall performance of the Fund.

Investment manager risk

There is no guarantee that the Fund will achieve its performance objectives, produce returns that are positive or compare favourably against its peers. The Manager may change its investment strategies and internal trading guidelines over time, and there is no guarantee that such changes will produce favourable outcomes.

Regulatory and legal risk

Governments or regulators may pass laws, create policy, or implement regulation that affects the Fund or the assets of the Fund. Such initiatives impact either a specific transaction type or market, and may be either country specific or global. Such changes may result in the Fund failing to achieve its investment objectives. Similarly laws affecting registered managed investment schemes (including taxation and corporate and regulatory laws) may change in the future, affecting investors' rights and investment returns.

5. How we invest your money

Warning: Before choosing to invest in the Fund you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund aims to generate regular income with some long-term capital growth.

Minimum suggested time frame

The minimum suggested time frame for investment in the Fund is 3 to 5 years.

Risk level of the Fund

Medium.

There is a medium level risk of loss of investment over the short term. Investment in the Fund has the potential to produce medium level returns over the suggested time frame.

Investor suitability

The Fund may be suitable for investors who are looking for an investment with the objective of the Fund listed above and are prepared to accept the risks of the Fund set out in Section 4.

Investment style and approach

Investment strategy

The Fund is managed using a disciplined value-oriented approach supported by intensive, on-the-ground bottom-up fundamental research resulting in a concentrated portfolio of fixed interest securities issued by companies in Asia and the Middle East, which, in the view of the Investment Manager, are undervalued, on either an absolute or a relative basis, have the potential to generate regular income and have the potential for some capital appreciation.

Investments guidelines

There are no fixed geographic weightings in the allocation of the Fund's assets. Any geographic or industry weightings will be mainly driven by the bottom-up selection process. The Fund is expected to be fully invested except where defensive strategies such as moving to cash are employed. A portion of the portfolio may also be allocated to cash for liquidity purposes. Derivative instruments such as forwards and participatory notes may be used; however, not for the purposes of leveraging or magnifying the Fund's exposure to any particular asset or market. The Fund may carry out foreign exchange transactions to facilitate the purchase and sale of securities and the collection and transfer of income as well as to implement any currency hedging. The Fund is expected to be hedged in Australian dollars within a range of 0% to 100% of the Fund's NAV.

Asset allocation

- Asian and Middle Eastern fixed interest securities: 20%-100%
- Cash: 0%-80%

Investments held

The Fund invests in fixed interest securities issued by companies in Asia and the Middle East. This may include high yield debt and convertible notes. The Fund may also invest in cash and money market instruments and derivatives including over-the-counter participatory notes and foreign exchange contracts.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

Neither EQT nor Value Partners takes labour standards or environmental, social or ethical considerations into account when making their investment decisions. However, where those factors negatively impact the investment performance or company stability, Value Partners' investment team will generally discuss these matters with company management and/or review the decision to hold the specific investment. No specific methodology is used for such reviews nor are there pre-determined views about the extent to which such factors will be taken into account in a review.

Fund performance

Up to date information on the performance of the Fund will be available at www.premiumchinafunds.com.au or by calling Premium China Funds Management on +61 2 9211 3888.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following template can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

TYPE OF FEE OR COST	AMOUNT
Fees when your money moves in or out of the Fund	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Termination fee	Nil
Management costs	
The fees and costs for managing your investment ¹	Management fees: 1.13% p.a. of the NAV of the Fund ²

¹ All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how management costs are calculated.

² Management fees can be negotiated. See "Differential fees" below.

Additional Explanation of fees and costs

What do the management costs pay for?

Management costs comprise the additional fees or costs that an investor incurs by investing in the Fund rather than by investing directly in the underlying assets of the Fund.

Management costs include management fees. In addition, management costs do not include transactional and operational costs (i.e. costs associated with investing the underlying assets, some of which may be met by Buy/Sell Spreads).

Management fees

The management fees of 1.13% p.a. of the NAV of the Fund are payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees are accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, ordinary expenses such as investment management fees, custodian fees, administration and audit fees, and other ordinary expenses of operating the Fund are covered by the management fees at no additional charge to you.

The management fees shown above do not include extraordinary expenses (if they are incurred in future), such as litigation costs and the costs of convening investor meetings.

Transactional and operational costs

In managing the assets of the Fund, the Fund may incur transactional and operational costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold, and the costs of derivatives used for hedging purposes (if applicable). This generally happens when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread reflects the estimated transaction costs incurred in buying or selling assets of the Fund when investors invest in or withdraw from the Fund. The Buy/Sell Spread is an additional cost to the investor but is incorporated into the unit price and incurred when an investor invests in or withdraws from the Fund and is not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.50% upon entry and 0.50% upon exit. The dollar value of these costs based on an application or a withdrawal of \$25,000 is \$125 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion.

Transactional costs which are incurred other than in connection with applications and withdrawals arise through the day-to-day trading of the Fund’s assets and are reflected in the Fund’s unit price. As these costs are factored into the NAV of the Fund and reflected in the unit price, they are an additional implicit cost to the investor and are not a fee paid to the Responsible Entity. These costs can arise as a result of bid-offer spreads (the difference between an asset’s bid/buy price and offer/ask price) being applied to securities traded by the Fund. Liquid securities generally have a lower bid-offer spread while less liquid assets have a higher bid-offer spread reflecting the compensation taken by market makers in providing liquidity for that asset.

During the financial year ended 30 June 2018, the total transaction costs for the Fund were 1.81% of the NAV of the Fund, of which 20.83% of these transaction costs were recouped via the Buy/Sell Spread, resulting in a net transactional cost to the Fund of 1.43% p.a. However, such costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. Equity Trustees has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly. We will generally provide investors with at least 30 days’ notice of any proposed change to the management costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Expense recoveries may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its management fees and is not an additional cost to the investor. If the payment of annual fees to IDPS Operators is limited or prohibited by the law, Equity Trustees will ensure the payment of such fees is reduced or ceased.

Differential fees

The Responsible Entity or Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients or New Zealand Wholesale Investors.

Example of annual fees and costs for the Fund

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

EXAMPLE – Premium Asia Income Fund		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management costs	1.13% p.a.	And, for every \$50,000 you have in the Fund you will be charged \$565 each year
Equals Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of: \$565* What it costs you will depend on the fees you negotiate.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore management costs are calculated using the \$50,000 balance only.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.premiumchinafunds.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Link Fund Solutions
Unitholder Services
PO Box 5482
Sydney NSW 2001

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as an investor in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of an investor in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.
